

ManhattanLife™

Standing By You. Since 1850.

ManhattanLife Lighthouse Series

Cancer and/or Heart and Stroke

Providing health & financial security solutions when you need it most

Cancer and/or Heart and Stroke

The Financial Risks are Undeniable

ManhattanLife
Lighthouse Series

Cancer and/or Heart and Stroke is part of the **ManhattanLife Lighthouse Series** of products. This Series was designed specifically with the senior market in mind, allowing you to easily locate, review, and enroll in any of our senior focused products. Offerings will include Dental, Vision, & Hearing; Cancer, and/or Heart and Stroke; Home Health Care; Medicare Supplement; and Final Expense Life Insurance. The **ManhattanLife Lighthouse Series** strives to be a single-source solution for seniors, providing added security and protection when it's needed most.

Patients who lack health insurance coverage are at elevated risk of substantial financial hardship, particularly in an era of rapidly rising healthcare costs and inflationary pressures. ¹

Rising Costs

The Peterson Center reported that healthcare spending in the U.S. during 2019 was **\$11,582** per person and expected to climb to roughly **\$18,000** per person by 2028. ²

\$18,000

\$11,582

61%

Rising Debt

A 2019 congressional research service report found that the percentage of elderly households, people 65 or older, with any type of debt increased from **38%** in 1989 to **61%** in 2016. ³

38%

Inflation

Price tags on consumer goods from processed meat to dishwashing products have risen by **double-digit** percentages from a year ago. ⁴

Double-Digit

The Health Risks are Real

1,806,590
606,520

Cancer

In 2020, it was estimated that **1,806,590** new cases of Cancer would be diagnosed in the United States and some **606,520** people will die from the disease. ⁵

Heart Attack

In 2018, nearly **half a million** deaths in the United States included hypertension as a primary or contributing cause. ⁶

On average, someone dies of cardiovascular disease every **36 seconds** in the United States. ⁷

500,000 
36 Seconds

3 min: 33 sec
405 deaths

Stroke

On average, someone dies of a stroke every **3 minutes and 33 seconds** in the US. There are about **405** deaths from stroke each day, based on 2018 data. ⁸

50% OF MEN AND 33% OF WOMEN WILL DEVELOP SOME FORM OF HEART DISEASE. ⁹

How Can ManhattanLife Help?

Cover Costs That Matter Most to You

ManhattanLife's **Lighthouse series** was designed to provide flexible product offerings that give seniors the ability to tailor coverage to their specific needs. Whether family history dictates Heart coverage, Cancer coverage or both, ManhattanLife has you covered.

Meeting Specific Needs

We understand that treatment is not the only cost that comes with a Cancer, Heart Attack or Stroke Diagnosis. That is why ManhattanLife pays benefits directly to you, the insured, providing financial relief allowing you to focus on treatment. These costs could include: Childcare, Transportation, Lodging, Deductibles, Lab Tests.

Choose a benefit level from \$5K to \$75K for either
Cancer, Heart & Stroke or both!

10 years or more	100%

* optional recurrence benefit

Claims Examples

EXAMPLE 1

Robert currently has a \$25,000 Secure Plus Cancer Policy with a Cancer Recurrence Benefit Rider from ManhattanLife and was recently diagnosed with Cancer. His policy will pay the Cancer Lump Sum benefit. Lump Sum Payout:

Cancer Lump Sum:	\$25,000
Total Benefit Paid:	\$25,000

6 years later, Robert is diagnosed with Cancer again. Because he has a Cancer Recurrence Benefit Rider, he will receive 50% of his original \$25,000.

Cancer Recurrence Benefit Payout:	\$12,500
Total Benefit Paid:	\$12,500
Total Benefit Paid:	\$37,500

EXAMPLE 2

Ken has elected to purchase \$75,000 Cancer and \$75,000 Heart & Stroke coverage. 12 months after purchasing the policies Ken suffers a Stroke and is then diagnosed with Cancer. His Cancer and Heart & Stroke coverage would pay out the following:

Cancer Lump Sum:	\$75,000
Heart and Stroke Lump Sum:	\$75,000
Total Benefit Paid:	\$150,000

EXAMPLE 3

Last year Judith purchased a \$50,000 Heart & Stroke plan. This year, after satisfying her 30 Day Waiting Period, she had to have Aortic Surgery. 6 months later, she had to have an Angioplasty. Her Heart & Stroke plan would pay out 25% of the \$50,000 for the Aortic Surgery and 10% for the Angioplasty.

Aortic Surgery Benefit Payout:	\$12,500
Angioplasty Benefit Payout:	\$5,000
Total Benefit Paid:	\$17,500
Remaining Heart & Stroke Benefit Amount:	\$32,500

EXAMPLE 4

Kelly has had a \$20,000 Heart & Stroke Policy without the Heart & Stroke Restoration of Benefits Rider for the past 2 years. Kelly suffered a Stroke and then suffered a Heart Attack 6 months after. Her Heart & Stroke Policy will pay one lump sum benefit of \$20,000 for the Stroke and coverage will terminate after initial payout. No benefit is paid for the Heart Attack.

Heart & Stroke Lump Sum:	\$20,000
Total Benefit Paid:	\$20,000
Remaining Heart & Stroke Benefit Amount:	\$0

Rates

Cancer Base Policy

Monthly per \$5,000				
Issue Age	Individual	Individual & Spouse ¹	One Parent	Family
20 - 39	\$3.75	\$6.25	\$4.25	\$7.00
40 - 44	\$4.75	\$8.25	\$5.50	\$9.00
45 - 49	\$6.25	\$11.00	\$6.75	\$11.50
50 - 54	\$8.25	\$14.25	\$8.50	\$15.00
55 - 59	\$10.50	\$18.50	\$11.00	\$19.00
60 - 64	\$13.25	\$23.25	\$13.50	\$23.75
65 - 69	\$16.00	\$28.00	\$16.25	\$28.50
70 - 74	\$18.25	\$32.00	\$18.50	\$32.25

80 - 84	\$19.25	\$33.75	\$19.50	\$34.00

MODAL FACTORS*

Annual: 11.765 x Monthly

Semi-annual: 6.118 x Monthly

Quarterly: 3.118 x Monthly

RATE MULTIPLIER

Your Benefit Amount / \$5,000

HOW TO CALCULATE EXAMPLE**

A couple aged 38 and 40 wants a Cancer base policy with a Benefit Amount of \$50,000.

Rate Multiplier = \$50,000 / \$5,000 which equals 10.

Step 1:

Start with the "Individual & Spouse¹" column and locate the issue age band that contains age 40 (oldest among the couple) \$8.25

Step 2

Multiply the found rate by the Rate Multiplier.

$\$8.25 \times 10 = \82.50

Individual & Spouse¹ Monthly rate = \$82.50

* Premiums are rounded to the nearest penny after the application of the modal premium factor

MODAL FACTORS*

Annual: 11.765 x Monthly

Semi-annual: 6.118 x Monthly

Quarterly: 3.118 x Monthly

RATE MULTIPLIER

Your Benefit Amount / \$5,000

HOW TO CALCULATE EXAMPLE**

An individual aged 65 wants a Heart & Stroke base policy with a Benefit Amount of \$60,000.

Rate Multiplier = \$60,000 / \$5,000 which equals 12.

Step 1:

Start with the "Individual" column and locate the issue age band that contains age 65

\$16.75

Step 2

Multiply the found rate by the Rate Multiplier.

\$16.75 x 12 = \$201

Individual Monthly rate = \$201

* Premiums are rounded to the nearest penny after the application of the modal premium factor
